- _____/100 Total

A percentage of the total budget is set by missions team for each sub-category such as buildings, equipment, rent, schools, events, orphanages, sewing centers, people who are 365 days a year doing the work and sharing their faith, etc. This allows like ministries to be compared by point totals and then funded under the percentage of the total budget allocated to that area. Funding limits within each sub-category are set and may vary by each sub-category. For example, a year long missionary may have a cap of \$1000 a month. The event sub-category may have a limit of \$500 for the two day event.
